830-896-8500
tlc@lionscamp.com

CONTACT

Stephen Mabry

COST

\$75/INDIVIDUAL
\$140/FAMILY

To register or for more information:
www.lionscamp.com

Join endocrinology experts led by Dr. Stephen Ponder for in-depth information and resources for understanding and living with Type 1 diabetes. Through seminars, breakout sessions and a Q&A time you will find answers to questions pertinent to your family or child's development.

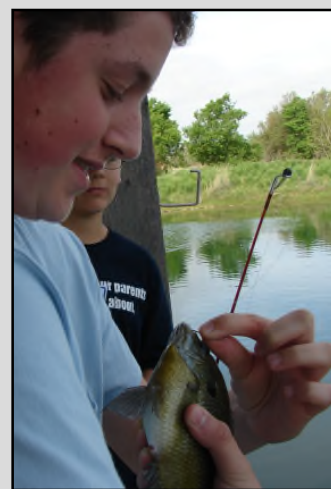

Breaks and Meals will be monitored with carb counts identified in order to provide needed nutritional and medical information.

Space is limited and you will not want to miss this chance

to spend one-on-one time with medical experts. To register and for updates as TLCDBU approaches go to: www.lionscamp.com. Also join us on Twitter (#TLCdbU) to sound-off and follow the meeting preparations and outcomes.

There are special sessions for Parents and Grandparents, plus a one of a kind Kidz Kamp for children 6-12 years of age.

Lions are also encouraged to attend and learn more about Type 1 diabetes and what TLC does in providing education and resources for anyone with Type 1 diabetes. Also, encourage families to attend who are considering sending their child to summer camp. Looking for a club project? Consider providing financial resources to help someone attend the weekend and give them an opportunity to learn more about care for themselves or a loved one.
